

Year 1 Curriculum Letter- Autumn 2024

Dear Parents / Carers,

Welcome back and welcome to Year 1! We are delighted to have the children back in school and are very much looking forward to working with them over the course of this school year. The purpose of this letter is to keep you informed about the learning the children will be doing during the Autumn Term.

Thematic Curriculum:

Our new Theme is 'School Days'. This is an extremely exciting theme, which allows the children to learn about how the key differences between schools in the past and school today. Throughout the theme, the children will learn what school was like in Victorian times as well as the key physical and human features of the school and its environment. Alongside the core knowledge of the theme, the children will also have the opportunity to engage in 'memorable experiences' such as meeting members of the school community to talk about school life in the past and visiting the school kitchen to see what happens 'behind the scenes'. There will be many opportunities for children to display their artistic talents and flair for drama within the theme as well. Another memorable part of this theme will be the development of the children's Design and Technology skills when they create their very own 'healthy school dish'!

English

During this term, the children will be reading and writing across a range of different text types and genres. Within our main English lessons, the children will initially be focusing on the classic story of 'Dogger', which is always a favourite for the Year 1 children. This will give the children opportunities to write sentences about the book as well as to practise their accurate use of capital letters, finger spaces and use of full stops. The children will also explore further narrative texts such as 'The Three Billy Goats Gruff'. Linking closely with our Autumn Theme 'School Days', the children will also be studying a non-fiction information text so they can write simple information sentences. Later in the term, the children will have the opportunity to study Poetry by enjoying the classic poem 'Zim Zam Zoom' in which they have opportunities to perform the poem as well as create 'new rhyme' based on the structure read.

Read, Write, Inc. Phonics

We will be continuing to support the children's early English development using the Read, Write, Inc. phonics scheme, which will be taught daily. This is an immersive approach and the children will be grouped across the key stage according to their current phonic ability. As well as bringing home a reading book, the children will also receive a Read, Write, Inc. storybook, which supports the phonic sounds they are learning in school.

Mathematics

Within this initial term, the children will be practicing their counting skills to 10, number bonds to ten and twenty and working on basic addition and subtraction calculations to 20. We will also be solving problems and puzzles, which involve the children understanding the numbers given and solving it using either the addition or subtraction operation. As always, our mathematical problems and puzzles will be presented in a lively, fun and engaging way so our Year 1 children continue to learn through a 'playful' investigative way within the classroom.

We will be ensuring to cover any 'gaps in learning' from Reception as well as ensuring that the children are 'challenged and stretched' as appropriate.

Science

The children will be focusing on two brand new Science units this term: 'Head, Shoulders, Knees and toes' well as 'Weather Watchers'. Within the first half term, the children will be naming, labelling and drawing the basic parts of the human body as well as learning which part of the body is associated with each sense. As usual, there will be numerous opportunities for the children to take part in practical science investigation so that the scientific enquiry is led in a fun and engaging way. Following 'Head, Shoulders, Knees and Toes', the children will study 'Weather Watchers' which focuses on observing changes across the four seasons and which weather types are associated with each. Again, we will be carrying out scientific investigations with the children so they see this in action!

Physical Education – PE

This term, activities will include gymnastics and athletics, which will take place on **Mondays and Tuesdays**. As a school, we have made the decision that in order to maximise learning time, children can come to school in their PE kits on PE days. We request that children wear their school jumpers or fleeces over the top of their PE kit. Please ensure they are wearing appropriate kit for the weather (leggings/joggers when it is cold or wet).

Religious Education – RE

Within Religious Education, the children will be exploring the following key questions over the course of the term:

- 'Who is a Christian and what do they believe about God?'
- 'What gifts might Christians in my town have given Jesus if he had been born here rather than in Bethlehem?'

Personal, Social and Health Education (PSHE)

This term, our Jigsaw unit is called 'Being me in my world', the children will think about what it means to be part of the school and that they belong to the class. They will consider how to create a safe classroom environment and recognise how it feels to be proud when they achieve something.

Home Learning

- We expect the children to read their banded reading book at least **3 times a week** and record this in their reading diaries. The class teacher will monitor these on a weekly basis. Children who have read a minimum of 3 times at home will be rewarded with 5 Dojos each week! Please also support your child in reading the High Frequency Words in their word purse.

Trips

Throughout the year, the children will have a variety of opportunities to enhance their curriculum offer with trips and visits. We appreciate that the cost of living has risen and therefore in order to help families plan ahead with budgeting, we are hoping for the proposed trips and visits below:

Autumn Term: St John's House Museum – Thursday 10th October (£17.50)

Spring Term: Theatre workshop company in school for a London's Burning themed activity. (Date and price to be confirmed)

As always, many thanks for your continued support. We are all very excited about the learning ahead during this term. If you have any questions, please do not hesitate to get in touch.

Many thanks,
